

# Pure Nicotine

WHO-cGMP | REACH  
*Sustainable* | *Traceable*  
US DMF | USP *Verified*  
GLP | Kosher

## About us

We make our USP grade Nicotine entirely from scratch in India. Our nicotine is made with finest quality high-strength tobacco, sourced from the rolling plains of India's tobacco heartland, Gujarat. Experience is the cornerstone of quality and we've been making Nicotine since 1979! A non-stop search for excellence, and an obsession with quality has led us to an ultra-refined manufacturing process that ensures top-quality Nicotine in every batch.

Constant improvement has meant our ISO 9001:2015, cGMP facility is WHO-GMP approved, and our nicotine is REACH (EU & UK) registered and Kosher certified. Our US DMF for Nicotine USP is filed and we are USP Verified!

Our in-house lab is GLP accredited and fully equipped to test our products to the USP standard monograph.

Nicotine USP/EP

Nicotine Polacrilex USP

Nicotine Bitartrate

ISO 9001:2015

Our GMP quality systems, API Quality Control, Manufacturing documentation and Test results have earned us the very prestigious 'Verified by USP' certification for our Nicotine USP and NPR!

We also manufacture natural APIs, standardized botanical extracts for dietary supplements, functional foods, pharmaceuticals, and cosmeceuticals.

Curcumin extracted from Curcuma Longa.

Withanoloids extracted from Withania somnifera (Ashwagandha)

Asiaticoside and Triterpenes extracted from Centella Asiatica.

Gingerols and Shogaols Powder and Oleoresin extracted from Ginger.

Veg DHA (Docosahexaenoic Acid) Powder and Oil extracted from Schizochytriumsp Algae

## Traceability & Sustainability

Our Nicotine is traceable to the farm level with a complete dossier !

We are a zero discharge, solar powered manufacturer. Using electric vehicles at maximum, harvesting rainwater and composting or recycling all our waste.

Nico Orgo distributes tonnes of organic fertiliser annually helping create a sustainable farming ecosystem in our area and we've cultivated thousands of trees to create a Miyawaki forest!

We lay great stress on environmental stewardship and our facility is ISO 14001:2015 certified.
